

OUR INSPIRATION BEHIND THE TIMBERLINE

Meet the Timberline. Born from the insight and experiences of Traeger users across the nation, then perfected by a team of engineers and BBQ experts, it's our most advanced grill in 30 years. Crafted for everyone from the backyard hero, to the competition pitmaster, the Timberline gives you the control to customize your wood-fired cooking like never before.

This masterpiece started with you. Together, we've rewritten the rules for cooking with fire.

YOU DIRECTED
Our inspiration for the Timberline came from you. That meant spending time on your turf to talk with you, cook with you, and learn from your unique Traeger experience. You pushed our grills to the limit, so we created a grill that will push yours.

PROS REFINED
No one knows barbecue better than the folks in the competition circuit. So we collaborated with some of the top BBQ and culinary professionals to create a grill that keeps their competition cooks a cut above the rest on the road or at home.

WE DESIGNED
With the help of a team of top engineers, we designed a grill that gives you the control you crave. Superior structure and design, combined with new features like Super Smoke mode and WiFIRE control, allow you to craft your food better and turn up your skill set every time you turn on the grill.

TRAEGER APP

Your newest tool to join the Traeger lifestyle. Available for iOS and Android.

WiFIRE REMOTE CONTROL

Connect with the Timberline's WiFIRE Controller from anywhere to track and adjust set temps and timers

AVAILABLE FOR ALL

Recipe, Dealer Locator, and Shop functions available to anyone with the Traeger App

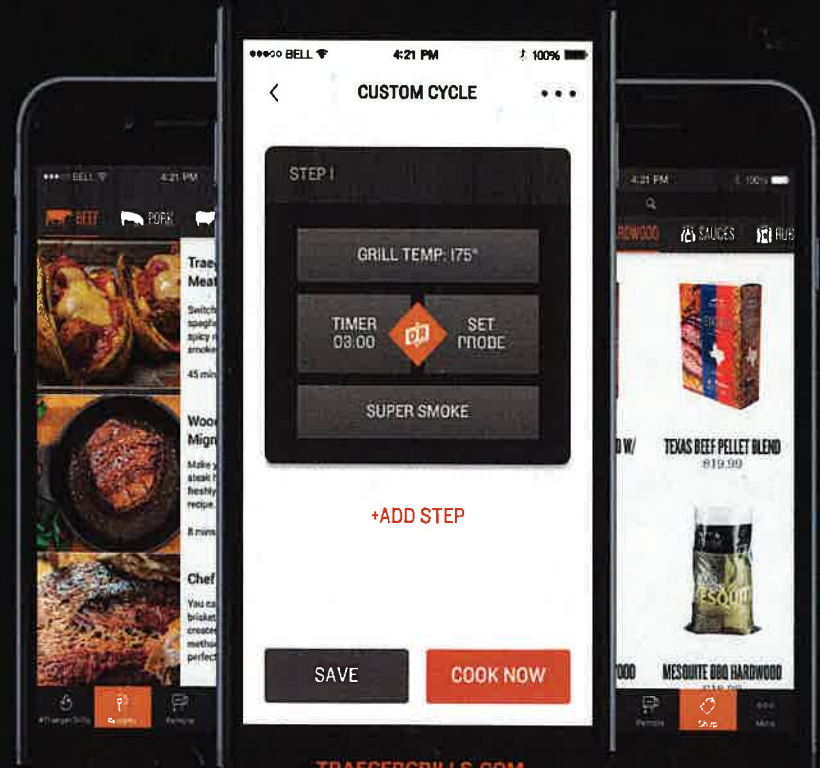

RECIPES

Access thousands of recipes from wood-fired pizza to BBQ brisket

Remote connection to control grill currently only compatible with Timberline WiFIRE Controller

SHOP

Find a Traeger dealer or shop from app

SUPERIOR STRUCTURE AND DESIGN

TO GET CONSISTENT RESULTS EVERY TIME, you need consistent temperatures every time.

LID GASKET

PILL SHAPED BARREL

DOUBLE-WALLED

THREE-TIER STAINLESS STEEL GRATE SYSTEM

LOW AND SLOW TO SEARING HOT

TRU CONVECTION
Redesigned to create a powerful vortex of heat and smoke to impart wood-fired flavor and lock in moisture

TRAEGER DOWNDRAFT EXHAUST SYSTEM

Exhaust channels allow fresh blue smoke to circulate the barrel fully before exiting the chamber

SUPER SMOKE MODE
Craft ultimate smoke profiles with a push of a button

— SMOKE — SCIENCE

PREMIUM TASTE COMES FROM TOP QUALITY SMOKE
Our patent-pending approach creates and circulates pure, blue smoke for the finest hardwood flavor.

WiFIRE ULTIMATE CONTROL

CONTROL FROM YOUR PHONE ANYTIME, ANYWHERE.
Freedom to change grill temperature, set timers, and connect with the Traeger community via the Traeger App.

CONNECTED

WiFIRE® Controller uses your Wi-Fi network to connect your grill to the Traeger App
